Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 9-13 are rejected under 35 U.S.C. 102(e) as being anticipated by **Kobayakawa et al.** (6,064,338).

As to Claims 9-13, with respect to Figure 3, **Kobayakawa** teaches a radio base station apparatus comprising:

a reception weight calculator that performs a weight calculation to determine a plurality of reception weights (Figure 3);

an adaptive array antenna receiver that performs an adaptive array antenna reception of signals from a plurality of communication terminals using a plurality of directional patterns formed based on the plurality of reception weights (Figure 3); and

a path searcher that combines power addition values respectively corresponding to the plurality of directional patterns of the signals received by the adaptive array antenna reception to determine a power combination value, and performs a finger assignment using the delay profile

Art Unit: 2645

to output a dispreading timing used in the weight calculation for the adaptive array antenna reception (Figure 3).

Response to Arguments

3. Applicant's arguments filed 10/18/04 have been fully considered but they are not persuasive and the following:

Examiner respectfully believes that the claims are not allowable as presented. However, they will be allowed if the following amendment to Claim 1 is made:

Replace "adaptive array antenna receiver" with "reception direction control circuit"

Examiner respectfully invites Applicant to contact Examiner to discuss similar amendments to the other independent claims for allowance.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

None

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2645

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any response to this final action should be mailed to:
